Jae,

Once the CBI information comes in, please keep it locked in your desk. I have a couple of things to do tomorrow-Weds, but I will have time Thurs-Friday to look over. I'd like to spend a couple of days going through all the information and then meet w/ you. Perhaps we can devote several hours next Monday or Wednesday in a conference room. After that I can do preliminary number crunching and share that w/ you for your review. There will be a lot of information to go through and I expect it will take several days to come up with the calculations.

Thank you Jae for working with Tita to get their submittal to us today.

I look forward to working with you over the next couple of weeks.

Michael

If you can get it submitted by middle February that would be ok.

We can still live with for March 1.

Tita,

We have some concern in the EPA that why would take such long time, 2.5 months, to submit the information you already have.

Can you submit sooner?

Jae

Good morning Jae

Thank you for the confidentiality update please let me know if you would like us to come into to discuss protection of information.

The Team is estimating a timeline of March 7th or sooner.

I apologize I wanted to call you again but presently I am attending emanifest meeting I can try to reach at break?

Tita,

As I left a message in your voice mail, EPA is in the process of determining your confidential request for the EPA's letter. In the meantime, we asked anyone who has a copy of the letter, not to release the letter to the public, and we should be informed if there is any FOIA request of the letter.

Once we have made a determination for the confidential request, we will let you know.

Do you have any concrete date for the response of EPA's December 15, 2016 Request for Information letter? We would like to know a general date of how soon you can submit a response.

Thank you

Jae
